Dear Vale,

We refer to the above matter.

TP driver reported that total 3 vehicles involved in chain collision and his vehicle was second. However, TP driver unable to provide the first vehicle number.

OI reported that this is a head to rear collision and he stand firm that only 2 vehicles involved in this accident.

Therefore, our surveyor would like to finalise cost of repair with TP repairer only rear portion. However, TP repairer did not accept and want to confirm with their hirer again.

Our latest discussion with TP repairer @ their office on 20/04/2017 during the bulk settlement meeting and TP repairer still unable to provide the first vehicle number.

Since there is no further development, we will close the file temporary and will submit our wp report to your good office.

Thank you.

Best Regards,
