Sketch Plan #2

SKETCH PLAN

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

The accident happened along Bukit Batok Street 11, near block 132, at 12.45 pm on Saturday 16 May 2020.

I looked right, traffic was clear, I looked left, looked right again, then moved off. I moved out of the stop line, went over the first lane, turned to the right to join the opposite lane and that was when my car was hit on the back right door with a great impact that the air curtains on both the right and left sides got activated. I was in the car with my daughter in the front passenger seat.

I am familiar with that road. Vehicles have to go through 2 junctions. That stretch of road has bus stops before and after the 2 junctions. There is also a pedestrian traffic light crossing in between the 2 junctions which are a short distance apart. Usually vehicles are going slow on that stretch.

Traffic from my right, the traffic light junction, are usually slower than traffic from the left for side, the non-traffic light junction.

DECLARATION

I/We declare the foregoing particulars are true in every respect
