Brief Details.

On the above mentioned date and time, I was driving my vehicle SLJ 2595S along the open space carpark at 285A Bukit Batok East Ave 3.

SLV 1019H which was travelling in front of me came to a stop on the right side of the 2 way road. It had stopped against the flow of traffic.

As such, I proceeded to continue travelling straight when suddenly, SLV1019H made an abrupt left turn and cut into my vehicle's path.

I immediately jammed very hard on my brakes in an attempt to avoid collision but to no avail. The front left portion of SLV 1019H still collided into my vehicle's front right portion.

My neck snapped forwards and backwards as a result of both me jam-braking and the impact from the collision. My left knee had also knocked against the dashboard of my vehicle.

Initially, I only felt abit of pain on my left knee. However, several hours later, I started feeling muscle soreness on my neck and both shoulders.

As such, I went to my family doctor at Unihealth 24-Hr Clinic (Jurong East) for treatment and was given 3 days MC.
