#### Brief Details.

On 15/07/2020 at about 5:15pm, I was driving my vehicle (SKR4833L) along Tampines Ave 7 heading towards Tampines St 34. I was ferrying my colleague to Tampines East MRT Station.

While along Tampines Ave 7, the traffic light in front was red and the traffic was on a stand still. I was safely stopped behind the vehicle in front of mine (SFV1588C). The light turned green and the vehicles started moving forward. I started moving forward as well as I assumed that the vehicle in front of mine would start moving as well. However, the vehicle in front of mine did not move forward and caused my vehicle to collide into the rear of it.

I immediately stopped my vehicle the moment I knocked into the front vehicle. The knock was light in nature and my passenger and I did not sustain any injuries. I then alighted from my vehicle and proceeded to make a check on the other driver. While I was checking on the other driving, a traffic police officer came by to assist us. I believe he was around the area as none of us called for police.

CONTINUATION OF REPORT

I checked with the other driver and he informed me that he was experiencing some discomfort in his right leg. He told me that it was an old injury but it had relapsed due to the accident. He then informed that he required medical services and the police officer call for ambulance. The ambulance shortly came and the other driver was conveyed by it. I only managed to get the name and contact number of the other driver.

I managed to take some photos of the damages to the vehicles. My vehicle did not sustain any damages but the other vehicle received some dents on the right portion above the rear bumper. The traffic police gave me a case card and told me to lodge an accident report. My vehicle does not have any on board camera.
