Hi Jas

Your insured had reported that he was traveling straight and felt an impact.
My customer said he was stationary therefore this is very obvious that your insured who was driving had hit onto my customer's car.
Moreover, there was a traffic Marshall present, there is no need for my customer to risk making a false statement whereby it is so easy to find the witness.

Your insured was obviously trying to make the report very ambiguous and making the claims difficult.

Therefore, we do not wish to drag this case further, I just hope you can compromise and let us have your reasonable offer asap.

Dear Jas,

Our customer was stationary as per instructions from the road marshall, your insured said he was driving and hit onto our vehicle.

I think this is direct enough.
Hope to receive your offer soon.
Thank you.
