Hi Kevin,

I've spoken to your ex-colleague Richard regarding about this vehicle. The vehicle sustained serious damage on the front portion mainly on chassis frame.
Apart from that, the interior surrounding of the engine compartment was badly damage as well. The undercarriage parts, Air-bag, roof- top, front portion, were also sustained serious damage. Richard did spoke to me that the chassis frame cost more than \$ 350K in order to replaced it. Fyi, the repair limit for this vehicle is only \$ 153,144, It's already uneconomical to repair.

Note: We are on work from home arrangement. All correspondence should be made via email. Submission of claim related documents will be in softcopy. Any inconvenience caused is much regretted.

Hello Rasul,

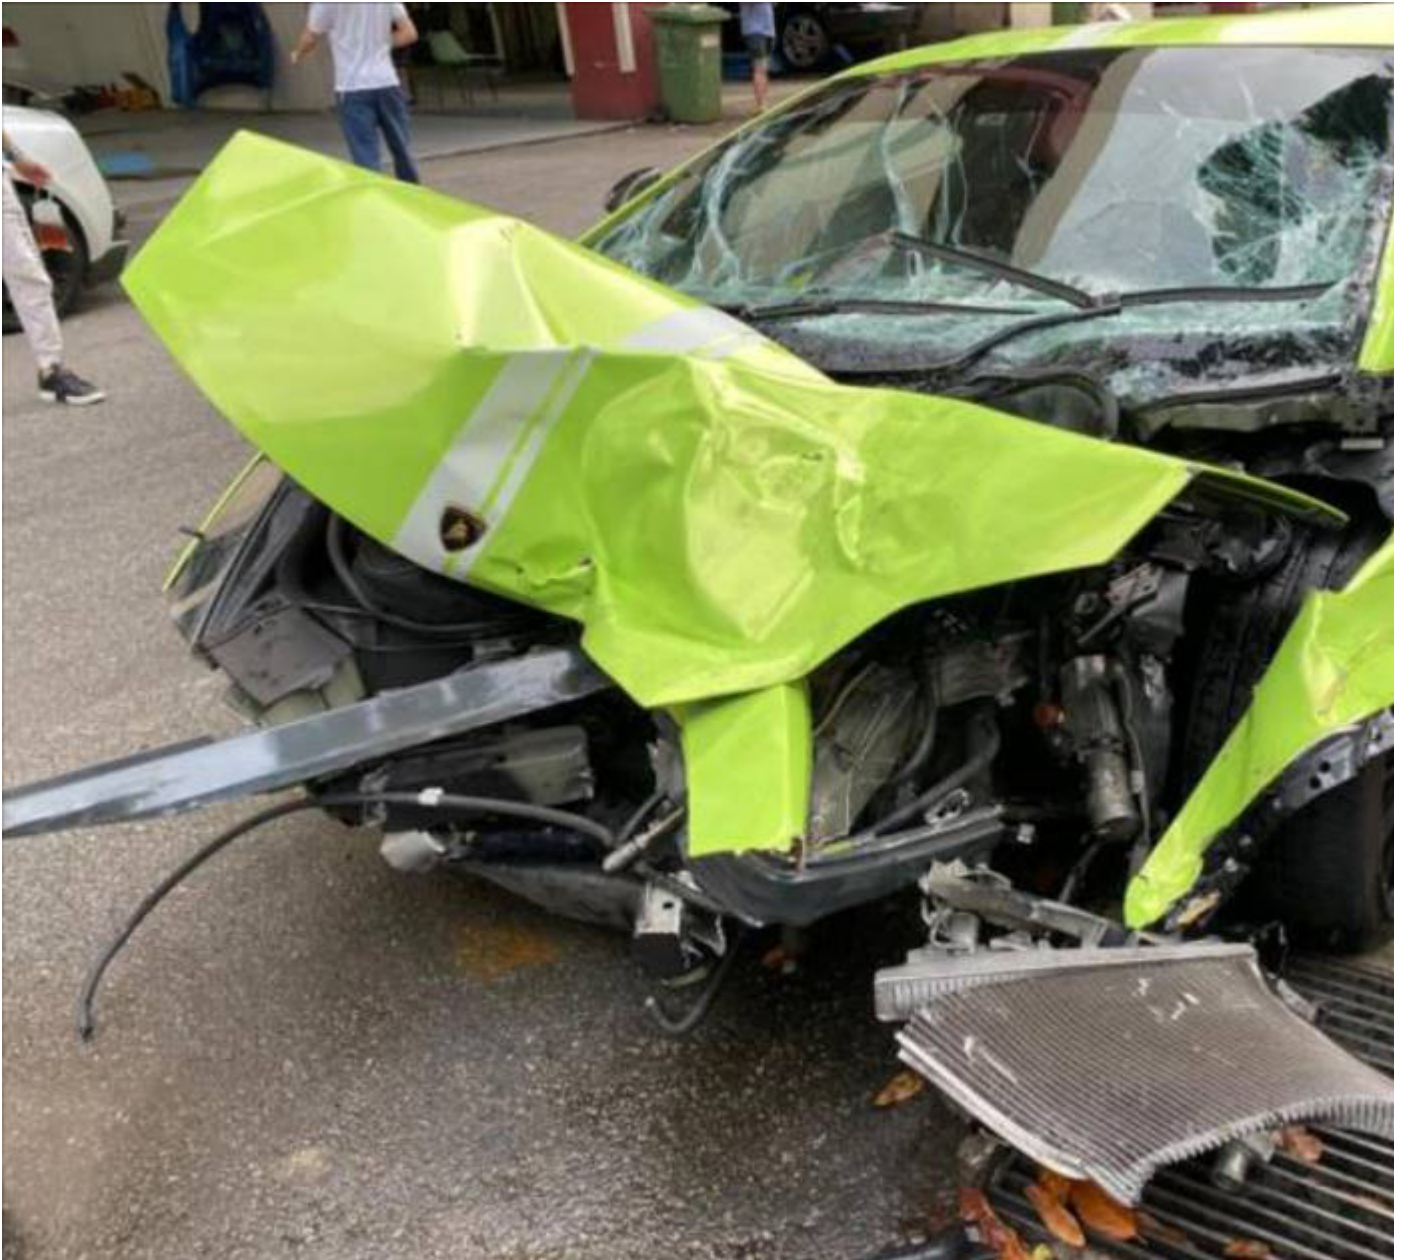

The car SKL1688R has sustained serious damage to the main chassis.

To repair this, we have to order the whole car body shell like the picture as shown, together with many other parts.

And the parts cost alone would be more than \$350,000.

This car is deemed not economical to repair, thus we recommend for a total loss.

Thank you and,

Best regards,
Richard Harjanto
