Dear Joanne,

Third party was parking his vehicle head in, into the Open space carpark and collided onto insured's vehicle.

From the accident scenario, third party did not ensure the safety of travel flow before parking. For head parking, in view of the size & length of his lorry, he must keep to the right side of driveway so that he would have enough space to head in. The statement of insured precisely describing how did the accident happened.

Third party did not check any vehicle which might drive passing him on the left before turning left head in, is the proximate cause of accident. Therefore, we would like to reject third party claim.

Kindly let us have your instruction.

Note: We are on work from home arrangement. All correspondence should be made via email. Submission of claim related documents will be in softcopy. Any inconvenience caused is much regretted.

Best Regards,
