To Whom it may Concern

Part for Lotus Elise has been delayed due to space constraints on flights to Singapore due to the current Corvid situation in the United Kingdom. We are doing our best to ensure parts will arrive in Singapore within November 2020 or latest by December 2020.

Your Understanding on this matter is much appreciated as we have already been allocated flight space and just hoping it is not being delayed due to the lock down in the United Kingdom again as this is something we cannot control.

Parts are ready and packed in the United Kingdom and awaiting shipment and flight to Singapore therefore causing a delay in shipment.

Best Regards

Gerrayne
