## Sketch Plan #2

### SKETCH PLAN

### DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

I was driving along Jurong West Avenue 4 and entered the filter lane to turn to Jurong West Street 64. The van in front of me PC 3860J (herein after referred to as "the van") suddenly jammed brake even though there was no vehicle in the first lane right after exiting the filter lane. I jammed my brakes too but could not stop in time. There was a light bump between the front of my car and the rear bumper of the van. After the filter lane, we stopped by the side of the left most lane of Jurong West St 64. Everyone in both vehicles alighted. Those in the van were CISCO officers. They said that no one was injured and there was no damage to the van. My passenger, Daniel Chow, ~~was~~ <sup>also</sup> and I was not injured as well. They told the driver of the van, Kong Lim Tsong, GXXXX691X, hereinafter referred to as "the van driver" and I exchanged our contact details. He told me he will have to submit a report and it was up to CISCO HQ to decide if they want to pursue the matter. Both of us also took photos of the rear of the van and the front of my car, SGF8086K, hereinafter referred to as "my car". The front of my car had no dents and there were also no dents on the bumper of the van where there was contact. The only noticeable difference was that there was a little black paint on the front of my car. The CISCO officers told me they have to go for work and asked me to contact Kong Lim Tsong if anything. The video of the accident, the photos of the van and my car and the Whatsapp messages between me and Kong Lim Tsong ~~are~~ <sup>also had been</sup> provided to IDAC Bukit Merah.
