

Hi Victor

The locking pins mentioned previously is captured as photos number 63-68 in the merima system.

Please also see attached PDF documents, where all the detachable parts of the rear windscreen are depicted.

Items 34-38 of the schematic drawings are individually printed for your easy viewing.

None of the items 34-38 look remotely similar to the locking pins that are presented in photos 65-68 in the merima system.

Please also note that the PDF documents are downloaded from the Audi E-catalogue.

Hope that the above clarifies matters.

~~Ats~~ Regards.

Adrian Lim
