Dear Sirs/Mdm,

ACCIDENT INVOLVING PC 5399L(III) AND SMU 986R ON 06/10/2020

We refer to the above matter.

Attached is a copy of third party video footage for your easy reference. According to third party, this is the only video footage, no longer video prior collision.

From third party video, we observe that third party vehicle was not fully in the 2nd lane and suddenly there is a jerk/impact to third party vehicle. As per our insured accident report, he had indicated left signal and entered into the 2nd lane slowly. A few seconds later, third party who was in lane 3 came into lane 2 and collided with our insured bus. It is likely that both parties were filtering into lane 2 and collided with each other.

In view of this, kindly advise if we may propose 50/50 or else advise further instruction in Merimen. Thanks.

Best Regards,

Hsiao Tong, Chew (Ms) | Case Handler
