**Subject:** RE: Accident involving SLW 4028G & GZ 1097U along/at 50 Kallang Ave on 07/20/2020

Dear Gillian,

Please be informed that third party did not have the video footage.

Under normal circumstances if you have turned into wrong entrance of a building before you intend to join the road, you should look out for any possible traffic flow from behind and ensure the safety of the road before joining in the road.

Therefore, we are of the opinion that you do not have a good case to defend even though third party did not have the video footage to support his stand as he has the right of way to travel.

Thank you.

**Note: We are on work from home arrangement. All correspondence should be made via email. Submission of claim related documents will be in softcopy. Any inconvenience caused is much regretted.**

Best Regards,

**Subject:** Accident involving SLW 4028G & GZ 1097U along/at 50 Kallang Ave on 07/20/2020

Dear Ms Chan Jia Le

With regards to our phone call yesterday morning, I will like to highlight the following key points:-

1. Vehicle SLW4028G was travelling along Kallang road and slowed down near the entrance of Schneider building. Realising that it was the wrong destination, the driver signaled and manoeuvred to join the traffic. There was no attempt to perform an U-turn as shown in the in-vehicle camera recording;
2. SLW4028G had the right of way while vehicle GZ1097U was likely to be speeding and failed to provide a proper lookout for vehicle(s) in front. Judging from the impact and damages to driver right of SLW4028G, the technical assessment revealed GZ1097U was travelling beyond the stipulated speed limit allowable;
3. I would like to dispute the claims made by GZ1097U and would like to request for a thorough investigation to be carried out. I would like to request for a copy of the in-vehicle camera recording of GZ1097U to ascertain and support the purported liability of SLW4028G.

Thank you very much.

Yours Sincerely  
Gillian Giam
