**Brief Details.**

On 17/10/2020, at about 1705hrs, I was travelling together with my mother along PIE towards Tuas, on the first lane before exit 15A in my brother's grey Audi A3 (SMJ2025J) when a blue SG rental car (SMP2546R) collided into the rear of my vehicle. At that point of time, the traffic was quite congested and I was travelling at about 50km/h before coming to a stop. The traffic ahead then started to move off and I was about to drive off when the Blue SG car collided with my vehicle. I went to make a check and discovered that there was a dent at the rear bumper of my vehicle. The front of the Blue SG car was dented and the number plate had fall off. The airbags of his vehicle had been deployed. My mother and I did not suffer any injuries, just some complains from my mother that she felt numbness on her left arm area. The blue SG driver informed that he was not injured and that he was unable to stop his vehicle on time as the break was not effective. I'm lodging this report for record and insurance purposes.
