Super Quality Clear HD Videos

Day Scene

Night Scene

You can set to multiple HD videos modes and are record in 30 frames per second. It allows driver to record crystal clear video smoothly during event when you are driving.

TFT Display Screen that Provides Legibility

Unlike most of the compact size car camera, Marbella car cameras are all built-in with a TFT LCD Display. You may choose to always turn on the screen and toggle between videos and still photography with the minimal power.

Get the Best View from Any Angle

With an extra wide viewing angle, vertically and horizontally. The wider angle allows you to have the same picture quality from any front angle view.
