### Brief Details.

On 21/10/2020 at about 1315hrs, I was driving my car, SLU1781U along two filter lanes at Toa Payoh Lorong Two to Lorong Six. As I was driving, the cars ahead of me slowed down before coming to abrupt stop. I then slowed down my car before stopping abruptly. However, a car from my back, SMU3215M, which was very close to me, hit the rear of my car as it was unable to slow down. This resulted in damages for my bumper which was still intact but badly damaged.

We both then exchanged particulars. I do not have a back car camera for the recording of the incident. On 22/10/2020, I went to Mount Alvernia Hospital and was given a five-days mc (M20000050500). I am making this report for insurance claims.
