Dear Sir,

We have reviewed the matter.

The photographs shows the position of vehicles after impact, which could not reveal how the accident happen. However based on the photos provided, Third Party vehicle was in a straight position and your vehicle was in a slanted position.

Therefore, We are of the view that likely your vehicle could have encroached to Third Party's lane when turning.

We will proceed to negotiate for an amicable settlement with third party claimant.

Thank you.

Best Regards,

Dear Jaslin,

Attached are the photos regarding the accident. There was no change of lane except from turning left into Serangoon Road from Bukit Timah Road. While the vehicle that hit my car came straight on from Selegie Road. Attached are the photographs taken for your consideration. Thank you.

Regards
