Brief Details.

On 14/11/2020 at around 0824hrs, I was driving along Yishun Central towards Yishun Street 61. As I was at the junction waiting for the green arrow to be flash, all of the sudden a car bang my car hard and my car was moved about a few distance from the junction. Due to the impact, my body moved forward and hit the steering wheel.

I then came out from the car to make a check and noticed that my car was badly damaged. I felt giddy due to the huge impact. I sustained cuts at my left eyebrow and it was bleeding. My rear bumper was dented badly and it dropped. My car boot was opened and dented badly.

The driver of the other car came towards me and checked on me. He also apologized to me. The driver do not have any injuries. His car was slightly damaged. The damaged was the front bonnet was dented and some dented at the bumper. His front car plate was broken. Due to the impact, the car front airbag came out.

Ambulance was along the way and stopped by to ask whether I need any medical assistance. During that

time, I was unsure of it and I mentioned to them that I do not required. After a few minutes, Traffic Police came to the incident and enquired me regarding the incident.

My car was installed with in-car camera and the SD memory card was taken by Traffic Police. I am not sure whether the other vehicle had in-car camera installed.

After the whole incident, I waited for the tow truck to come and towed my vehicle. I then followed them once they towed to workshop as I need to settle the paperwork. After settling all the admin matter, I went to the clinic near my house as I feel pain at my head. The doctor advised me to monitor my health and if I have any fever or vomiting, I will need to go hospital for further checks.

This is not the first time such incident had happened to me.
