Brief Details.

On 20/11/2020 at about 0850hrs, I was driving my car bearing registration plate SMR3066S along AYE towards Clementi Ave 6 in the middle lane behind a van. As the van was moving slow, I had to follow suit and had to apply brake intermittently. While I was gradually pressing the brake, suddenly a motorcycle bearing registration plate JKV3068 which was riding behind collided onto my rear.

After the collision, both the rider and I stop at the scene to assess the situation. None of us were injured and no government property is damaged. I have an in car camera and I believe the footage of the incident is captured.
