27th Nov 2020 - Around 11:00pm

I, Lim Kar Lui Alvic (S8849653A), was driving a Toyota Altis, SGF7450Z, along Orchard Boulevard heading from Plaza Singapura towards the junction of Paterson road, with the intention to turn right for heading towards Stevens road to the PIE expressway. While travelling on Orchard Boulevard, I was driving along the second lane from the right after the Grange road junction, avoiding the right most lane, as cars would usually queue to turn right into Orchard Turn towards Wisma Atria. I was also aware that the second lane from the right was a right turning lane when heading towards the Paterson road junction.

While driving along Orchard Boulevard after passing the Grange Road, I was cruising at a speed of approximately 50km/hr and met with an amber traffic light before the junction of Orchard Turn. I decided to slow my vehicle down to a halt, and was the first car on the stop line.

27th Nov 2020 - Around 11:05pm

After stopping my vehicle, I heard loud screeches from the back of my vehicle for a couple of seconds, and was hit at the back of my vehicle with a huge impact on the car. Upon looking at the rear mirror, I realised that a pickup lorry had collided with my stationary vehicle. I immediately checked the condition of myself and my passenger, Low Xin Yun Jocelyn (S8905880E), to make sure that we were both unhurt. Once that was confirmed, I wore my mask and made sure it was safe to get out of my vehicle to assess the resulted damage from the collision. The collision occurred just in front of the traffic light pedestrian crossing.

27th Nov 2020 - Around 11:06pm

I also engaged the lorry's driver, William Jacob Ponniah (S7789942A), Vehicle number GY6984G, and exchanged our driver's license to take picture, exchanged our phone numbers, and took pictures of the damaged vehicles.

After we were done exchanging information, William shared that the lorry belonged to his company, Ristar Asia Pte Ltd. William shared that he would like to do a personal settlement on this matter. William had initially proposed for the vehicle to be sent to his workshop, but after further discussion, I requested for the vehicle to be sent to my preferred workshop.

27th Nov 2020 - Around 11:17pm

A neighbourhood police car also stopped by to enquire if we would settle the accident within ourselves (William and myself). We shared with the officer that the accident will be settled amongst ourselves and we would be doing a personal settlement.

27th Nov 2020 - Around 11:20pm

William and myself later discussed about how the car may be brought to the workshop, where I told William that I would attempt to drive the vehicle to my home, and get a tow truck the next morning to send it to my preferred workshop. I mentioned that I will drop William a call the next morning to follow up, which he agreed.

27th Nov 2020 - Around 11:25pm

We got into our respective vehicles and drove off after the traffic light turned green. While moving my vehicle, I realised that the vehicle was making a loud noise at the rear end. I decided to stop my vehicle at the right hand side of road after driving for around 50 meters, just outside The Ion Residences. When I got out to inspect my car, I realised that the left rear damaged bumper was touching the left rear tyre, and the vehicle was not able to be driven any further.

27th Nov 2020 - Around 11:26pm

I immediately dropped a call to William, where he drove his vehicle to a halt behind my vehicle. William called a tow truck which came around 12:30am on 28th Nov 2020. While trying to secure my vehicle to be towed, the tow driver tried to secure the damaged left rear bumper with a string, but eventually had to dismantle the entire bumper as it was hindering the left rear tyre for my vehicle to be towed.

28th Nov 2020 - Around 12:45am

My vehicle left the side of the road, and was transported by the tow truck, YJ5199D, from the road side to Kah Hup Motor Services, 9 Sin Ming Industrial Estate Sector C, S(575644).

27th Nov 2020 - Around 10:06am

I had a chat with the workshop representative, and was informed that the estimated total cost for the accident would cost up to SGD\$2.5k.

27th Nov 2020 - Around 10:24am

I dropped a whatsapp message to William to inform him that the cost of the repair would be up to SGD\$2.5k. Context of the whatsapp message "The workshop has assessed the damage. Everything inclusive should be up to 2.5k".

27th Nov 2020 - At 10:29am

William replied my message to inform me that he would call me shortly. Context of message "Ok Alvic I call u shortly".

27th Nov 2020 - At 11:11am

I received a call from William, where he mentioned that he intended to claim the company's vehicle insurance, instead of doing a personal settlement.

27th Nov 2020 - At 11:12am

I dropped a call to the workshop representative, where she advised me to create an insurance report on the first working day, on 29th Nov 2020.
