Brief Details.

On 8/12/2020 at about 1805hrs, I was travelling on CTE(SLE). I had just passed by the Braddell exit and wanted to go to Woodlands. Traffic was heavy on SLE, as there was an accident on the first lane. I shifted to the second lane and continued my journey.

Out of nowhere, I felt a strong impact and loud bang. That was when I realized that my vehicle had been hit. At the time, my vehicle was in drive gear and my foot was on the brake. I was about 3/4 car length away from the vehicle in front, and my vehicle propelled forward and hit the vehicle in front of me, SLF3687A. This impact also caused the front vehicle to hit the vehicle in front of him. After composing myself for a while due to the impact, I got out of the vehicle. I noticed the other drivers were getting out as well and exchanging particulars, to which I followed suit.

CONTINUATION OF REPORT

I asked the vehicle who had hit me, SDQ407Z, on how he had hit me, and he said he had realized the situation, but had not enough time to brake, causing his car to collide with me. I noticed everyone had not suffered any injuries that were visible. No police nor ambulance came down to the scene. After exchanging, we all went our own separate ways, to which I realized that I did not take the first vehicle's plate number, but I had taken his IC, namely: Ong Ching Soong, S6871016B.

After dropping the car off at the workshop, my friend sent me to Khoo Teck Puat Hospital, where I was given 3 days medical leave due to the whiplash I had suffered. Aside from the front and rear vehicle, both cars in the middle experienced damages to our front and rear. My bumper and rear door was badly dented, and my front bumper was badly dented as well.
