Hi Ms. Chew Hsiao Tong,

As spoken, please kindly review my case , as I've attached both vehicles photos.

You can see clearly my left front fender dented very badly and the other vehicle SKA 2226S totally no dented at all.

In your letter given, you have mentioned both parties were changing lanes but why the other party vehicle was not scratched at all?

From the video images that captured in my in-car camera(SME3887H). Rightfully, I am in my lane , then suddenly the car SKA 2226S

bump into my lane , as you can see carefully that vehicle could have skidded to my lane because on that it was raining and the road

condition was wet. Please kindly review my case, and hope to hear a good news from you. Thanks

***Best regards,***
