Attention : Mr Eugene Goh

Dear Sirs/Madam,

RE-INSPECTION OF VEHICLE NO . Bicycle (OI: SKQ 2465J)

Pursuant to your instructions on 22 May 2019, we have conducted a reinspection of the above bicycle at 421 Tagore Industrial Ave #01-01 Tagore 8 S'787805 on 18 July 2019.

We recommend a repair cost of **\$19,088.00** (see report) based on part by part repair.

We also enclosed our note of charges for your consideration.

Thank you for this assignment.

Your faithfully

Ad Description

Zipp's ultimate all-around speed weapon is now tubeless ready. That means you get all of the aero advantages of the 454 NSW Tubeless Disc-brake wheelset with the added benefit of increased cornering grip and compliance with reduced rolling resistance. The wheelset's 19mm internal width is optimized for running wider tubeless tires at reduced air pressure. The 454 NSW's undulating 53/58mm-deep rim shape, our proprietary Sawtooth™ profile, takes design cues from nature for our highest performing wheel when it comes to aero efficiency and crosswind stability. A humpback whale's fast and graceful movements are aided by tubercles on its pectoral fins. These structures inspired Zipp advanced development engineers to, for the first time, systematically apply biomimicry to solve the complex challenge of designing a wheel, with the undulating Hyperfoil™ nodes, that reduces both aerodynamic drag and side force. Combined that with tubeless compatibility and the power of disc brakes, and you are set for the ultimate in Zipp performance.

New Zipp graphics and cosmetic identity that screams speed, applied using Zipp's ImPress™ direct-print technology.

19mm internal width and tubeless compatibility for optimization of wider tires with lower tire pressure

Cognition DB hubset rolls efficiently whether you are pedaling or coasting. Its Axial Clutch™ technology allows the freehub's ratcheting mechanism to deliver half the mechanical drag of conventional three-pawl hubs.

Sawtooth™ rim with Hyperfoil™ nodes and HexFin™ ABLC dimple pattern for top aero and crosswind-stability performance with an undulating 53/58mm rim depth

Center locking rotor interface. Lockring is included

XDR™ or SRAM/Shimano driver bodies

Ships with 12mm front and rear end caps

Campagnolo driver body sold separately

SIZE (WHEELS) 700c

Ad Description

Dura Ace 9150 Di2 Groupset

The Dura Ace 9150 Di2 Groupset from Shimano. Dura Ace 9150 Di2 Group set has been designed to work in unison with each other giving you the unparalleled power delivery and performance. The Dura Ace cranks give a perfect balance between being light weight and stiffness making it the choice for the worlds pro road riders. The outer chain ring on the dura ace 9100 crank are hollow to give further weight reduction and removing flex from the chain ring giving crisp precise shifting under even under high load. The cassette features a rigid carbon and alloy carrier helping to improve shifting when every shift counts. The Di2 Technology uses wires instead of cables that eliminates poor shifting that is caused by cable stretch and contamination. This makes shifting gear effortless and comfortable even in cold conditions. The shifters feature carbon fibre blades and titanium hardware. The Dura Ace 9150 rear derailleur has a carbon cage and pulley plates to reduce weight and improving stiffness, with self-lubricating pivot bushings. The front derailleur has been redesigned to eliminate outer trim and is more resistant to chain wear due to the forged alloy chain cage. The Dura Ace brakes are dual symmetrical for increased stopping power also giving clearance to run 28c tyres. The brakes feature a thrust bearings and coated bushings to increase durability and smoothness. Groupset includes cranks, pair of STI shifters, front and rear derailleur, cassette, front and rear brake, chain plus E-TUBE wires, two junction boxes, internal mount battery and charger. Available in black with 170 & 172mm cranks. Bottom bracket not included with group set.
