DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

26 December 2020 at about 14:04hrs, I drove past the downtown east carpark and went into the roundabout, exit back to the main traffic at the middle lane. I was going about 20 to 30 km/h. I wanted to keep to left lane, I slowed down, switched on the left signal, and checked the left side mirror and rear mirror. I saw there was only a black MPV some distance behind my car and there is no other ^{car} in my ~~left~~ left side mirror. So I started to keep into the left lane, and then turned into the open space carpark. Suddenly my car was hit by the vehicle (5KH1792T). My car was swayed about 180 degrees and stopped outside the open space carpark entrance opposite the downtown east. The impact had caused deployment of my left side co-passenger and left rear passenger airbags. The back left rear side of my car was damaged.

My wife was sitting on my front passenger seat, my daughter was sitting in her booster seat on the right rear passenger seat. There is no car camera in the vehicle (5KH1792T). The other party persuaded me to sign off a note.
