Circumstances of Accident

I was turning from Moulmein road to Thomson road. As I got onto Thomson road (straight road) , a dark blue grey Toyota Car (license plate: SJS6875J) came from nowhere and bumped into my car's rear end (right side). It happened right in front of a road barrier (white and orange colour barriers) and the collision was witnessed by 2/3 construction workers. The dark blue grey Toyota car was driven by an elderly couple (likely to be in their 60s to 70s), male driver and a domestic helper sitting in the back seat. It's a busy junction with construction works all over. As I couldn't stop on that narrow 2-lane along Thomson road with traffic coming from behind, I turned into Newton Road to find a safe spot to park my car. Instead of following me, the elderly Toyota driver continued onto Thomson Road. The traffic light towards Newton road was turning green, it was about to rain and I was on my way to pick up my son from his primary school at Barker road. The elderly driver drove past me pretended as if nothing happened. I noticed the dent on the Toyota's front left but as the car was moving I could only manage to take a photo of the vehicle and the car plate number from behind. I couldn't pull over anywhere along Newton road so I went straight to my apartment at Surrey Road to assess the damage on my car and headed straight out again to pick up my son from school. After I picked up my son, I contacted the police hotline and a traffic police officer came by to my place at 10 Surrey road to take my report and the SD card from my dash camera.
