CONTINUATION OF REPORT

Brief Details.

This accident is referenced from J/20201022/0109.

On 22/10/2020 at about 1835hrs, I was driving my rented motor vehicle SLH8122U Hyundai Elantra (silver) on the second lane along BKE (about 600m away from KJE exit) when the accident took place. I wish to state that that my girlfriend was sitting in the front left passenger seat and a Grab Hitch passenger sitting at the left rear of the back seat when the accident took place. I recalled I was driving at about 63km/h. The traffic condition was slow moving due to rush hour. The weather was clear and the road was dry. It was a three lane straight road.

As I was driving at the above mentioned date, time and location, I witnessed a motorcycle FBK1832C filtering into the third lane when he lost control of his balance which resulted into a collision against the rear bumper of a silver Toyota Altis SGB5182G. The collision also sent the rider flying 360 degrees into the air before he landed on the road. The collision of the motorcycle with the Toyota Altis caused his motorcycle to land on its right side on the second lane where I was driving on. The location of where the motorcycle landed on was blocking my pathway where it was directly in front of my motor vehicle. I braked to swerve my motor vehicle to the right to avoid the motorcycle that was lying on its right side on the second lane but it could not be done as there were other road users on the first lane. Hence, this resulted in the collision between the front left side of my motor vehicle against the storage compartment of the said motorcycle which was lying on its right side blocking the second lane of the expressway. I wish to note that after exiting from my motor vehicle which was parked on the road shoulder (hazard lights on), the driver of the motor vehicle SMJ5049X, red Toyota Rav4 told me that as the motorcycle toppled on its right side, it also caused damages to his motor vehicle.

The rider was only injured at his left leg and I also noticed some abrasions on his face and his other limbs. He was still conscious and able to speak at that time. A doctor driving the motor vehicle SME8649X silver Toyota Vios who stopped at the road shoulder rendered aid and attended to the injured rider. However, I do not know who called for the ambulance and the Traffic Police. I also did not note down the rider's name or contact number. I also did not note down the details of the doctor who rendered assistance. Moments later, traffic police and ambulance QX1237A arrived at scene and conveyed the injured rider to Khoo Teck Puat Hospital.

My girlfriend and the hitch rider was not injured after my assessment and this also includes the driver of SGB5182G and SMJ5049X. The accident caused damages to my front left wheel fender and front bumper. I do not know the estimated cost of repairs. I am lodging this report as directed by the Traffic Police and also for insurance claiming purposes. A police case card was also given to me. My motor vehicle has a front in-car camera installed however, it could not record the whole incident due to a faulty memory card. In summary, this accident happened due to the rider of the motorcycle losing control while filtering left into the third lane and it collided onto the rear bumper of the silver Toyota Altis SGB5182G. I wish to state that my girlfriend, the Grab Hitch rider and I saw the rider of the motorcycle being thrown up into the air from a distance.

The details of all the involved parties to my knowledge:

- 1) Driver of SGB5182G: Mr Sunny, Hp. 9746 6845
