**Brief Details.**

On 11/01/2020 at about 0848hrs, I was driving my company vehicle bearing plate no: PC5306E, containing 31 students and 3 teachers on-board along PIE, sliproad towards BKE(woodlands) when a gray van bearing plate no: PA9508Z appeared from my right which seemed to have lost control of the steering and the front left side of the van hit onto the right side on my bus. My bus hit onto the left side of the road shoulder and I managed to stabilize the bus in time and continued going straight. The van then swerved to the left and hit onto the road shoulder before coming to a stop. I then stopped my bus at the road shoulder and called for police assistance as the door of the van could not be opened and the driver is trapped inside. The traffic police arrived about 10 minutes later and assess the situation before the ambulance arrived and the driver of the van was rescued and conveyed to the hospital. During the collision, one of the teachers on board the bus fell and sustained injuries, subsequently conveyed to hospital as well for assessment of injuries. The traffic police gave me a white card and advised me to lodge a police report regarding the accident. I observed the left and right side of my bus was damaged while the front and sides of the van was damaged. I took a few photos of the damages on both vehicles and drove the bus off when I was allowed to. I was unable to get the particulars of the other driver and the teacher as they were conveyed to the hospital. Initially, I did not feel any body pains but after a while, I felt pain on my lower back which I am considering to see a doctor after lodging the report. I am lodging this report mainly for company record purposes and insurance claims.
