Hi Derrick,

We refer to your below email.

Please be informed that third party had no video footage for this matter. Third party reported that he was traveling along Dunearn Road, our insured hit onto his left side causing him to collided into SMU5769T.

Our insured driver reported that she was moving into the middle lane and suddenly she felt an impact from the right side and noticed that third party hit onto her right front side.

The driver of SMU5769T reported that she was traveling along Dunearn Road. While she is waiting at the traffic light junction, third party hit onto the left side of SMU5769T. She get down of her car and realised that it is a 3 vehicles chain collision.

Based on all parties report and scene photos in insured SAS report, we are of the view that BOLA 28(g) is applicable as our driver reported that she was moving into middle lane which is likely she changed into third party lane and hit onto third party vehicle. Third party collided onto SMU5769T.

	SCENARIO	DESCRIPTION

Kindly let us have your instruction on this matter as third party is chasing for offer. Thanks.
