Brief Details.

As I was travelling on the first lane along AYE towards Jurong after coming from CTE, a vehicle in front of me SFK769L did hard braking. I brake my vehicle and was able to stop without banging his rear. I look at the rear view mirror and was able to see that the rear vehicle, SDV126H also manage to brake without hitting my rear. However another rear vehicle bang into him and he bang into the rear of my car. Altogether there were 5 vehicles in the chain collision. My vehicle is the first. After exchanging particulars with the direct vehicle(SDV126H) that bang into my rear, I proceed to drive to work and make insurance report later at 10am.
