Brief Details.

On the above date, time and location, I was driving my vehicle (SMQ6601H), with a Grab female Chinese passenger sitting at the rear seat. I was then travelling along Lane 4 from the right of the 4 lanes traffic, slowing down with my left turn signal activated to turn into Kwong Wai Shui Hospital. At this juncture, I felt a huge impact from the rear, which caused my vehicle to surge forward vigorously. I alighted from my vehicle and realised that the front portion of a motor van (GBD4600Y) had collided onto the rear of my vehicle. At the scene, all parties affirmed that no one was injured and as such, no ambulance was activated.

After several hours, the said female passenger informed me that she had seek medical treatment relating to this accident and was given 3 days medical leave. On the next day, I felt pain on my back, neck and shoulder and sought medical treatment, and was given 7 days medical leave.

I wish to state that my in-car camera had recorded the whole accident.
