

I signalled right to turn from Horne Rd to Penhas Rd. The road was clear and the speed of driving very slow as there is no traffic light.

I heard a horn behind and stopped the car but a motorcycle came from the right and hit the front right of the car.

The car position is just 15% cross the middle lane, we the motorcycle rider and he is ok. We moved the motorcycle to an position and I parked my car in a parking lot. We exchanged phone and moved off without taking any pictures. After that I moved back my car to check for damages and there is a slight dent on the front right.
