Dear Sir/Madam

APPROVAL LETTER - APPLICATION FOR DRAWINGS APPROVAL

Please refer to the Application No. 202008184359D submitted on 18 Aug 2020.

Applicant Name/ Company Name : SAFEPROTECH MANAGEMENT PTE. LTD.

2. We are pleased to inform you that your application for the following drawing(s) has/ have been approved.

SPM-20-01

3. The Approval Code is 202008184359D1 and valid before 10 Nov 2023.

Please inform the owner/operator on the following conditions:

(1) The operation of the shadow vehicle with attached SAFE STOP SS180 TMA is subjected to the GOVERNANCE and CLEARANCE by the Road Asset Regulation & Licensing Division (RARL).

(2) The owner/operator shall -

(a) comply with all requirements set by the RARL; and ensure the operations do not cause any danger to the vehicle occupants or other road users; and

(b) detach the TMA and reinstate the vehicle to its original condition when the vehicle is not used as a Shadow Vehicle for road works.

(3) The driver shall EXERCISE CARE WHEN TURNING AROUND CORNERS/BENDS; and give due consideration for other road users at all times.

(4) All installation works of the TMA shall be performed by the manufacturer or their appointed agents in accordance with the manufacturer installation procedures and with sound engineering practice.

(5) The TMA shall be fitted with an integral trailer lighting system including brake lights, tail lights, signal lights, reverse lights, licence plate and licence plate lights (if the original licence plate mounted to the truck is obscured by the TMA), and etc, that is clearly visible to other road users.

(6) The TMA shall be in the folded position when the shadow vehicle is driven to and from the work deployment area. This is taken into consideration the TMA, in the horizontal position, will substantially increase the rear overhang of the vehicle and affects the vehicle manoeuvrability.

(7) Ensure the RARL-required warning devices and retro-reflective markings are installed in accordance with the latest Code of Practice for Traffic Control at Work Zone, prior to the vehicle deployment.

(8) Seek RARL's approval to confirm that the TMA complies with the mandatory requirements as stated in the NCHRP 350 Report TL-3.

4. Please use the designated Approval Code for subsequent applications (if applicable) for registration or any other applications requiring this code.

5. You may contact WONG YUEN KEAT DANIEL at 65535267 if you have any questions.

6. Thank you for using VITAS.

Yours sincerely

Assistant Registrar of Vehicles
Vehicle Approval & Control Division
Land Transport Authority
