Brief Details.

On 10/02/2021 at about 1.40pm, I was driving my taxi SHD730K along PIE towards Changi Airport when I got involved in a chain accident. The exact location was PIE towards Changi Airport after the Paya Lebar exit. I had earlier picked up a passenger, an elderly female, who wanted to go to Pasir Ris. The accident involved a total of four cars and it happened on the right lane of the three lanes road of the expressway. The weather was clear and traffic volume was light at that point in time.

The first car is SKZ6247Z. My taxi was the second vehicle. A third car SKS944X upon seeing the collision between me and the first car came to a stop after swerving a bit into the centre lane before it was hit by a fourth car, SML6485C before the same car continued to move forward and hit onto the rear of my taxi. I immediately checked on my passenger and she claimed to be fine and not injured. She did not see anything hence I did not take down her name and contact details.

All the drivers involved then got out of the respective vehicle to check on one another and our vehicles before exchanging contact details and taking pictures of the accident. Ambulance and Traffic Police also arrived at scene shortly after and attended to all parties. No one was conveyed and necessary advice was disseminated before we went our separate ways. My taxi was badly damaged as the front and back was dented in and had to be towed by EMAS. The passenger in my taxi was also dropped off at Eunos open carpark where my taxi was left. I did not ask the driver of the first car as to why he came to a stop.

I reached home at about 5pm and at about 7pm, I received two in car camera videos from Manfred Lim, hp: 98557332 the driver of the third car, SKS944X via WhatsApp. The first video from his front in car camera clearly showed that the road was clear when the first car, SKZ6247Z came to a complete stop causing my taxi to hit it from behind. The third car which managed to stop in time did not hit the rear of my car and from its rear in car camera, spotted the fourth car, SML6485C collided into the back of the third car before it moved forward on the right lane to hit into the rear of my taxi.

I found this suspicious as the road directly in front of the first car when it came to a complete stop was clear as reflected in the video hence lodging this police report. I had already informed Transcab and had arranged to settle with the insurance company tomorrow.
