SLR2815R vs GBK8189ETP VIDEO.mp4;

Dear Sherini,

We refer to the above matter.

Please be informed that third party disagreed our rejection and submitted a copy of video footage for our further review. From third party video, it shows that third party was driving straight, and our insured driver seems like making a sharp turn and both vehicles collided onto each other's.

In view of there is no lane marking on the road, we are of the view that both parties should exercise caution and would like to propose 50/50 for this matter.

Kindly let us have your comments/instruction after reviewing the matter.

Note: We are on work from home arrangement. All correspondence should be made via email. Submission of claim related documents will be in softcopy. Any inconvenience caused is much regretted.

Best Regards,
