CIRCUMSTANCES OF ACCIDENT

On 05/03/2021 at 1745hrs, I was travelling on the left lane of 02 lanes along Holland Avenue approaching the non-signalized cross junction of Holland Centre Road heading towards the direction of Shenton Way Bus Terminal on service 970, SMB1463B. I continued to move on and heading toward next bus stop for my pax activity, while travelling straight, I noticed that there was a side road on my left side ahead and from the side road there were vehicle stopped at its stop line and waited so I continued to move on and prepared my bus to pass the side road. When bus was almost reaching the side road (car parking lots Entrance and Exit). I noticed that there was a pte car on my right side and suddenly it's made a left turn into the Side road (Holland Centre) encroaching onto the front portion of my bus. My bus speed was around 30-40km/hrs. Upon seeing this, I immediately stepped on my bus brake but could not stopped my bus in time and collided onto the left side body portion of the pte car. When bus had completely stopped, I noticed that the pte car in-turn continued to move on and collided onto another stationary car waiting at the stop line along the side road Exit. I immediately called BOCC to report this accident case and checked on my paxs onboard, when all was fine. I alighted from bus to conducted damage checks, while checking, I noticed that my bus front body panel scratches marked while the third party pte car (SMU5578C) it's got a long scratched marked on its left side body. Police and ambulance was activated by member of public, after an investigation by Traffic police, the bus was released and was arranged to continue service from scene at 1816h. Ambulance left scene without conveying any pax.
