Re: Statement about the Incident on 12th of March 2021

To whom it may concern,

This is to attest the incident that happened last Friday, the 12th of March 2021.

At around 7:40am on that day, the car which I am a passenger of was driving along King's Road in front of St. Ignatius Church. This time is usually busy because of the vehicles dropping off students at Nanyang Kindergarten. A school bus overtook the traffic and drove on the wrong side of the road. It hit our car on the right side and the impact dragged our car forward which then resulted in bumping the car in front of us. No one was hurt in the incident, but the damage to the car that I am riding is huge.

After discussions among the parties involved, the driver said 'sorry' to the two girls riding in our car before leaving. This gives me the impression that she admits being at fault in the whole incident.

I acknowledge that my statement written here is correct.

Thank you.

Sincerely,
