Dear Shiau Chan

Can we know why a video of the damage undercarriage was not taken at the same time?

Please advise.

Thank you.

Dear Ming Shao,

Resend.

Attached is a video taken during the survey of SLU 8296H.

In the video, the two front tyres are not aligned to the same angle, which means that the front RH undercarriage is misaligned due to the accident.

Repairer also sent us some accident scene photos and a towing invoice which are also attached.

Please review the available photos & video and let us have your further instructions.

Thank you.

Best Regards,

Shiau Chan (Ms) | Case Handler

Subject: RE: SLU 8296H / TP / 634528 / SEEK MANDATE

Dear Shiau Chan,

We would like further clarification on item 18, 19 and 23 which was allowed particularly item 23.

The impact to the vehicle was to the lower portion of the fender very close to the front bumper.

Moreover the dent was not deep dent.

Unless the point of impact is at the centre of the fender and is deep, the undercarriage items are unlikely to be affected.

We would like your surveyor to re-assess the damages to the undercarriage parts.

Koh Ming Shao
