Dear Shiau Chan,

We would like further clarification on item 18, 19 and 23 which was allowed particularly item 23.

The impact to the vehicle was to the lower portion of the fender very close to the front bumper.

Moreover the dent was not deep dent.

Unless the point of impact is at the centre of the fender and is deep, the undercarriage items are unlikely to be affected.

We would like your surveyor to re-assess the damages to the undercarriage parts.
