135LC Pros & Cons

Things We Like in 135LC

- The lean profile of the Yamaha 135LC Super Sport is something which comes handy while tackling the worst of the urban traffic with ease and comfort. The slim tyres, as well as thin body profile of the 135LC Super Sport, makes it feel nimble and agile to ride.
- For an entry-level moped, the Yamaha 135LC Super Sport's 135cc single-cylinder engine is quite powerful and refined. The power and torque figures are in the league of a 150cc scooter, which gives it an impressive power to weight ratio.

Things We Dont Like in 135LC

- The cost consciousness of the Yamaha 135LC Super Sport is evident with the absence of many modern features in the moped. The 135LC Super Sport lacks any of the trendy features like LED lights, digital meters, which makes it feel a bit old fashioned and built to cost.
- While the single piece seat of the Yamaha 135LC Super Sport is long enough to seat two adults, the limited width and lack of cushioning makes it feel uncomfortable for longer commutes.

Recent Updates of 135LC

Since its launch in 2006, Yamaha 135 LC continues to be a popular model in the Malaysian market. The reasons for its longevity are evergreen styling, reliability, performance, and affordable pricing. Considering the popularity of the moped, the automaker launched the 135 LC in a new avatar last year. Along with the cosmetic changes, the revamped model gets a revised instrument panel. front cowl horn cover. new engine protection cover. and side panel air scoops. It houses a 135-cc motor. generating

Yamaha 135LC Verdict

135LC Overview

As one of the most liked cubs in the country, the Yamaha 135LC has never seen a drop in its fame since its launch in 2006. And why would it when it offers style, reliability, and performance in a single package that costs RM 6,868 only. Yamaha 135LC fits in high demand slot just above the 100-cc commuters and below the more performance-oriented 150-cc sports kapchais. This slot also makes it affordable. Hong Leong Yamaha Motors freshen up the look of the underbone last year; the significant changes include a revised instrument panel, an engine cowl, some air scoops, a stylish horn cover, new engine protection cover, and new colour schemes.

Yamaha 135LC Design

The recent facelift has enhanced the elegant look of the bike. Its flashy-looks with bright graphics and loud colour shades clearly aimed at youth with energetic appeal and trendy character. Unfront, the underbone poses an angular appearance with LED pilot lights and

Perfect learner bike

The Yamaha 135LC super sports bike is the best and the most user-friendly in its whole segment. The bike is very light in weight which makes it easy to handle and ride for a beginner. The acceleration offered by this bike is enough to glide through the traffic with ease. The riding position is also comfortable and perfect that allows [read more](#)

A very beginner friendly bike

I was looking for a beginner friendly bike for myself and after a lot of research, I decided to go for the Yamaha 135LC Super Sport. It was recommended to me by quite a few people and I am extremely satisfied with the riding experience considering that I am a beginner at riding. The bike is lightweight and very easy [read more](#)
