by MS W5689K

on 23/03/2021 at around 0215hrs, I was travelling along East Coast Parkway. I noticed that there was hydraulic oil leaking from side brush. Hence, I drove back to depot to change vehicle. When I reached the bus stop opposite depot at around 0230hrs, the engine was suddenly off itself and the signal (Engine Stop) on. I tried several times to start the vehicle but could not. Then I smelled burning and immediately got down from vehicle to check. I saw the smoke coming out from engine parts and there was a lady who passed by called SCDF. It was around 0300hrs and two men from bus stop team assisted to put out the fire using their equipment. About 0310hrs SCDF and police reached the scene while the fire had been totally put out. They have done their investigation at 0340hrs and the vehicle was towed to the workshop. No injury involved.
