Name:
NRIC/FIN No.:

Date: 2 April 2021
 Time: 10:59am
 Location: Bedok 208A Multi Storey Carpark
 Access road leading to the carpark after entry barriers.
 2 Lanes merging into a Single Lane.

Summary:

Red Car SMM573R which was behind my car grazed into the front right side of my Car when it overtook my Car in a merging lane. I had stepped on my brakes and stopped before a road bump to give way to SMM573R when I realised it was going to drive past me. Nevertheless, SMM573R hit my car's right side when it drove past the road bump.

Details:

I crossed the car park entry barrier at 10:59:38 on the left lane ahead of the Red Car SMM573R which was in the right lane. - see the backview camera video.

The 2 lanes merge into 1 after the entry barriers. Everyone ahead drove slowly in an orderly fashion, allowing each car ahead to file into a single lane. The driver of the red car SMM573R which was behind my car squeezed her way ahead of my car at a faster speed and knocked into my car when crossing the road bump at 10:59:55 hours. See 2 front view camera videos.

I had already stepped on my brakes and stopped before the road bump to let SMM573R pass when I realised SMM573R went ahead of my car, was driving at a faster speed and had no intention to stop. The Driver failed to give way to a vehicle on her left and ahead of her in a merging lane, failed to keep proper look out and maintain safe vehicle distance when overtaking a vehicle close by and did not realise she had hit my car until I sounded my horn to stop her from driving away. Under the highway code, "merging arrows are drawn on the road to give motorists advance warning that two traffic lanes are merging into one traffic lane. **Alternate vehicles** from the two lanes have the right-of-way into the single lane." **In this incident at the car park, my car had the clear right of way.** Even then, **I stopped to give way** but SMM573R still hit my car from the right after I had stopped to let the car pass.

Later when we decided to move our cars to the side to avoid obstructing oncoming vehicles, the driver of SMM573R reversed her car recklessly without keeping a lookout and would have knocked into my car again if I had not sounded my horn twice at her. See the third front view camera video.

The incident would not have happened if:

1. Driver of SMM573R which entered the carpark moments behind my car had waited her turn to file into a merging lane in an orderly manner without attempting to overtake a car ahead in the next lane.
2. When overtaking another car, she should had kept a safe distance especially when crossing a road bump with another car close by.
