Brief Details.

On the 09/04/2021 at 1100hrs, my vehicle was parked along Springside walk on the left side. The weather was clear and traffic volume was light. As my vehicle (GBF4764Y) was stationery and engine were off, I left my door slightly ajar as I was about to alight from the vehicle. Before I alighted, I had turn back and spoke with my colleague. Suddenly, I heard some sound and an impact from my vehicle's right side. I turn and discovered that one car (SLG6174M) had collided into my vehicle causing the driver side door to be damaged. I wish to inform that as my vehicle was parked along the road and my vehicle was slanting towards the right, that could have caused the door to swing open on its own. I alighted to make a check and found out that the car who was travelling the same direction that my vehicle had parked, had hit onto the driver door causing it to bend outwards. The damages to my van are the driver door. The car's damages are the engine bonnet, the front headlights and the front bumper portion. There is an in-car camera installed. There were no injures to all parties. I spoke with the driver and we decided on insurance claim. I am lodging this report for insurance claim purpose.
