Attachments: Email from OI dd 280621.pdf

Dear Chee Heng,

We refer to the above matter.

We have spoken to our driver Mr Chua on this matter. During our tele-conversation, he adamant that he was driving within his lane and he slowed down his car due to the front car slowed down. Third party was unable to stop and swerved left to avoid collision but still hit onto OI's vehicle. OID is of the view that if he changed lane and hit by third party, the damages sustained to his car will be more on the side door and more serious. The damages sustained to OI's vehicle was on the left rear bumper and fender. OID did not pursue the claim as liability is unclear at that point of time. OID did not repair his car till date and the damages is still on his car.
Kindly refer to the below photos submitted by OID on 28/06/2021 for your reference.

OID would like to highlight that the purple circle is the 1st point of impact that third party swerve and scratching his left rear bumper, then third party stopped his lorry and caused a dent on the fender(below the petrol pump cover).

No video footage or scene photos from both parties.

Based on damages profile, if OI stopped stationary without moving, damage to OI vehicle should have focus on rear left corner, but the damage appear to be on left rear bumper corner which indicating that OI attempting to swerve left also when third party lorry is swerving to left simultaneously resulted in the collision. Without concrete evidence like video footage, we are of the view it is 50/50 case.

Kindly let us have your view/comments in order for us to get back to insured on this matter.

Thank you.

Best Regards,
