Brief Details.

On 23/12/2020 at about 2345hrs, I was driving a taxi bearing plate number SHD3263Y along west coast highway. The traffic light was green thus I made the right turn into the open space car park leading to Macdonald. While making the right turn, suddenly one motorbike bearing plate number JTP6174 from the opposite road collided onto my vehicle rear left portion. The rider fell from his motorbike and I alighted to assist him. Subsequently Traffic police and ambulance came to our scene and the paramedic made a check on the rider. he was not convey by the ambulance.

The traffic police gave a case card reference D/20201223/0141 and advised me to lodge a police report. I wish to state that my vehicle sustained dents and scratches on the rear left portion. There is an in-car camera in vehicle and the traffic police has seized the SD card from my vehicle.

Total cost of repair:	7,084.90	4,860.20

9 CONCLUSION

The revised or adjusted cost of repairs to restore the vehicle is \$4,860.20

(a) However, the recommended cost of repair based on lump sum basis would be \$3,900.00

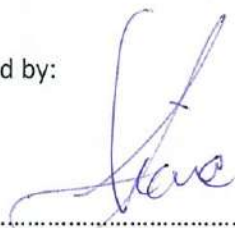

(b) The estimated number of days taken to complete the repairs would be Seven (7)
(1st re-inspection conducted on 6 January 2021)
(Post Repair Inspection conducted on 8 April 2021)

The above recommendations in my view are fair and reasonable for the restoration of the vehicle to its pre-accident condition.

Note: Lump Sum Repair Basis

This means the repairer is allowed to replace the damaged parts with used, reconditioned or new parts, or repair it to a roadworthy condition.
