Dear officer in charge

With reference to the above.

After thorough checking of the damaged vehicle, we feel that it would be uneconomical to have it repaired and thus we would like to suggest the option of total loss.

The entire front portion of the vehicle, the undercarriage, the engine assembly, radiator, air bags, safety belt assembly and many other parts would have to be replaced, resulting in an extremely high cost.

A rough cost estimate for the repair works and the parts would be approximately \$20,000 over thousand.

Considering the above, it would be more efficient and economical to opt for total loss of the vehicle.

Kindly consider and let us have your decision as soon as possible.
