Brief Details.

On the 30/10/2020 at 1955hrs, I was driving my vehicle bearing plate number SLZ5407Z with two passengers along PIE exit towards Sims Avenue as I am working as a Grab Driver. The traffic was heavy thus I stopped my vehicle. Out of a sudden, I felt an impact on my rear end of my car followed by a loud thud. My car moved forward however I did not collide with the car in front. I checked my vehicle and discover a CHR Toyota bearing plate number SJY8330U had collided with my car.

My car sustained damage in the rear bumper. The bumper left side had cracked and had come off abit. There was also scratches on the left rear of my bumper. After the accident I have suffered pain in my neck, and shoulder area. My back was also in pain. With the injuries I suffered I went to Changi General Hospital to get my injuries checked. The doctor gave me 4 days MC.

I wish to add that it was not raining, the road surface is dry. There was no conveyance by ambulance. No other party is involved in the accident. No government property damaged. I checked with both my passengers and were informed that they are fine however I am not sure if they had went to hospital or not.
