

SKETCH PLAN

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

the vehicle in front of me had been driving very slowly, and when he finally made a right turn, I overtook him on his left.								
When I did so, I suddenly heard a loud snap. later I saw and I immediately tried to steer my car to the right, away from the sound of the impact.								
later I saw that my LH mirror had been flipped back on itself, and the 3rd party vehicle's RH mirror had been folded inwards.								
It turns out the car behind me, had also tried to overtake both myself and the car in front of me on our right.								
I stopped my vehicle as soon as I could, and took photos and exchanged details with the 3rd party vehicle owner.
