I was driving along Bukit Timah Road, traffic was heavy. I put on my signal to show my intention to filter into lane 2.

I look on my right wing mirror to check car giving way for my filtering and there is enough space and clearance for me to filter into lane 2.

I'm not able to complete my filtering due to the front car is not moving off. I then come to a stationary position on lane 2 marking line.

All of a sudden, 'B' vehicle slowly moving towards my stationary car, despite I keep honking several time, 'B' vehicle still continue to move forward and I notice his left wing mirror housing is almost touching my right wing mirror housing. I immediately react to wind down my door window and put out my hand to stop 'B' vehicle from colliding my car.

'B' vehicle front left bumper collided my front right door and front right fender area. There was a passenger in 'B' vehicle, we exchange particulars and no one was injured.
