RE: LETTER REF 9553086993SG-003

ACCIDENT INVOLVING ER7667B AND SKS8035S ON 15/07/2021 @13.30 ALONG/AT KEBUN BARU MARKET AND FOOD CENTRE CARPARK ANG MO KIO AVE 1.

On 06/10/2021 I receive your letter dated 30/09/2021 with photos and your letter mentioned this accident involve ER7667B and SKS8035S. Photos shows vehicle SKS8035S is severely damaged.

We need to understand how it happened.. Is it due to the car speed or look at the damaged position, angle of contact (high/low) location of the damaged part of both SKS8035S and ER7667B?

The accident place is a carpark and a dead end, please note car speed can only move from front to back at 10HP.

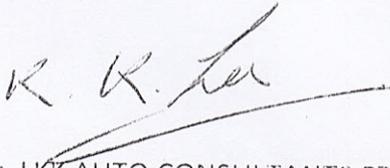

ER7667B car photo was submitted to AIG on 06/09/2021 there is no damage/paint mark at the back of the car.

I feel that there is no accident happened so I did not report to AIG.

Please consider my opinion and reply.

Thank you.

Yours faithfully,
