Dear David

We noted your concern regarding the repair cost.

As reported, it is a head-to-rear collision. Vehicles are designed to absorb impact energy rather than to resist energy within the impact force limits. Compared to the rear portion, the front portion of a vehicle is usually stronger and tougher as the front portion houses most of the mechanical & electrical components like engine.

Our surveyor had physically conducted survey to third party vehicle and is in the view that the damages sustained to the Third-Party vehicle is consistent to the nature of accident as reported. The adjusted repair cost to third party vehicle is at \$1,625.45(before GST).

The repair cost includes replacement of Rear bumper, Rear Tailgate, Rear logo, bumper sponge, Reverse sensor and Labour charges to re-spray, remove, repair and renews affected areas etc.

We attached here with the damage photos during our inspection for your easy reference.

Please be informed that the amount is not yet finalized.

Thank you.
