Message

Dear Veron, fyi, we have requested 3P lawyer for a physical reinspection. Based on the initial marked estimate we noticed that there are a few parts items that your surveyor has crossed out. Please double-check and comment that whether these items were canceled and are they related to the accident? Please refer to the following details of the parts (which were canceled) for checking: (1) RH & LH exhaust pipe (2) Transmission gearbox (3) X2 Engine mounting (4) Engine mounting bracket (5) LH dashboard glove box assy (6) Dashboard center cup holder.. Also, please take note to check the parts price and calculate the repair amount for this vehicle as the TP independent survey report has added the above parts to their survey report. Thanks
